

NEW PASSPORT APPLICATION 2009/10

- This passport application allows owners to apply for a passport in line with UK law and Commission Regulation (EC) 504/2008. It is for a DEFRA approved Identity Passport which is intended for animals with no provable pedigree and will show both pedigree and breed as unrecorded. Therefore if you know this information you should contact the relevant breed society.
- The Law: All horses, ponies, donkeys, mules and zebras require a passport. Those applying after 1st July 2009 will be required to be microchipped by a veterinary surgeon in accordance with Article 11 of Commission Regulation (EC) 504/2008. Animals older than six months (or after 31st December of their year of foaling) will automatically be signed out of the food chain (Section IX Part II of the horse's passport). Copies of the Regulations can be found on our website www.horsepassportagency.org

*The Owner:

The owner should complete the top part of the form. By providing your email on this form you will be able to log in to the Registered User section of our website and make updates on-line. If the animal is on loan the person who is the keeper of the animal can be added in the address section along with their address, i.e. c/o FRED BLOGGS, 79 HIGH STREET etc. The owner (not the keeper) must sign the owner declaration.

The Breeder:

The breeder of an animal is the person that owned the dam (mother) when she had the foal. We will only record this for foals (under 6 months or before 31st December) where you (the owner) have indicated you bred the animal and provided the country and full date of birth for the foal.

For Office Use Signature and stamp of veterinary surgeon or HPA Identifier Date: 12/12/07 <small>© Horse Passport Agency Ltd 2007</small>													

Please ensure that you have read our Terms & Conditions and Privacy Statement before submitting your application. Extra copies can be downloaded from our website.

Payment:

The passport application fee is £21 (incl VAT). Cheques, Postal Orders (payable to Horse Passport Agency Ltd) Debit and Credit cards (download the payment slip from our website) are accepted. 24 Hour Fast Track service is £35 payable by credit or debit card only.

Animal Name:

Animals not named at the time of registration can be named later, but there will be an administration fee.

Completing the silhouette:

The new law does not require the silhouette to be completed, other than to have the site of the microchipping marked with an M and any freeze brands or hot brands recorded.

There are practical benefits to having a completed silhouette contained within the passport (identification without the need for a scanner) and it may be a requirement should you want to compete the animal in the future. It will be possible to update your animal's passport with a silhouette in the future for an additional fee.

Where the silhouette is completed (if the vet draws more than an M) then it must meet our *minimum standards* which include:

- Recording all whorls, feathering, scars, white hairs and prophet's thumb marks, freeze brands and microchip numbers ensuring a minimum of five features recorded including at least one whorl. If you are unable to do this then a microchip should be inserted.
- Use standard symbols (a black X for whorls, a black — for feathering, a black → for scars and a black hollow Δ for a prophet's thumb mark. Red lines (hatching) for white hair and solid red for flesh marks and white hooves. Do not try to draw black or brown hairs - just white.
- White drawn on the legs should be from the three views (left, right and rear) unless stated in Other Features that it can not be viewed from one of these sides.
- Grey/Appaloosa/Roan horses should only have white areas shown where the skin underneath that white hair is a different colour to the rest of the body.
- It is important that you use black ink on the form except when marking white hairs or flesh marks. Study the example carefully - more examples can be seen on our website. Please complete the silhouette and fill in (don't just tick) the relevant selection boxes that best describe the silhouette.
